Carlos	Bass Guitar
Ellis	Trumpet
Hannah	Voice
Isabella	Voice
Pavanaj	Guitar
Ramona	Trumpet
Revenna	Piano
Siraj	Piano
Stella	Piano
Winter	Trumpet

Student Spotlight

Atticus

Atticus is 13 years old and has been taking guitar lessons since December 2024. He started playing because he loves music and thought it would be cool to learn the guitar. He enjoys listening to classic rock and playing both classic and current rock music. Although he gets nervous performing in front of audiences, he recently played at the Natomas School of Music Spring recital.

Atticus enjoys his lessons with Mr. Alex, who helps him with the tempo and pacing of songs. Outside of music, Atticus likes playing Minecraft and Rocket League video games. You can also find him on the field playing soccer and baseball.

Teacher Spotlight - Demitri

Demitri, born and raised in Sacramento, is a returning instructor passionate about teaching young people. He offers lessons in piano, drums, voice, and bass guitar. From a young age, Demitri demonstrated a natural talent for music, starting with drums and learning piano by ear. He honed his skills studying with musicians like Reggie Graham and Joe Gilman. After studying jazz at ARC, he performed as a dancer in Las Vegas while continuing to book gigs with bands. Currently, he plays at The Door Church Natomas and shares his extensive experience at Natomas School of Music.

Artist of the Month

Ariana Grande

Ariana Grande is an American pop singer, songwriter, and actress, famous for her iconic four-octave vocal range. She first gained fame on Nickelodeon's *Victorious* before becoming a global music icon with hits like "Thank U, Next."

Expanding her creative career, Grande starred as Glinda in the 2024 film adaptation of the musical *Wicked*, earning major award nominations. In 2026, she launched her own label, BabyDoll Music. [Click here to listen to "No Tears Left to Cry."](#)

Congratulations to the Following MLS Recipients

How To Learn The Piano Fast: A Parent & Student Guide to Quick Progress

How fast can you learn the piano? Most beginners can start playing simple songs within a few weeks! If you're consistent and use effective practice methods, you can learn piano quickly and build solid skills in a few months. Exactly how fast you learn piano depends on practice time, guidance, and individual learning pace. [Click here](#) to learn the piano quickly and efficiently, too!
