Dear Cathy,

Thank you so much for your email.

I was really impressed and inspired to read about the amazing dedication to music going on at the Rochester Academy of Music, and the great success you and your teachers have made in bringing the joy of music to so many students from all over the region.

Music is my passion, and I am a firm believer that anyone of any age or background should have the opportunity to learn a musical instrument, so I was delighted to hear about the number of committed teachers and students you have attending the Academy.

Wishing you all, staff, teachers and students, continued success and enjoyment in music.
